

Want More New Wellness Patients?

The Masters Circle is proud to introduce the most innovative, cost effective, time efficient strategy to attract an unlimited amount of new wellness-oriented patients. **It's never been easier than now.**

Now you can offer people in your community **unlimited access** to work **one-on-one** with a **live wellness coach** via **telephone, instant messaging** and/or **email** as a **complimentary benefit** of being an **active patient in your office**. *That's right; the coaching is a complimentary benefit for your patients and their immediate family members further creating your unique selling proposition.*

Now you can help people:

**Lose weight - Get fit - Eat better - Reduce stress
- Stop smoking and so much more...**

You can offer this incredible added value service to your existing patients, to attract new patients and to work with local employers for only \$1 per patient per month.

Here's how it works:

Calculate the number of unique patients you see in an average 30-day period.
Multiply that number by \$1 and that's your monthly fee (min. \$150 per month).

*"My new patients have more than doubled, my referrals have tripled and my PVA has risen at least 50%. My patients say they can't believe the quality of the coaching and are shocked when they discover that it is a complimentary benefit of being my patient. This program paid for itself in the first month!
The Discover Wellness Coaching program is a must have."*

-Dr. Kerry Keiser
Coronado, Calif.

Who provides the coaching?

WellCall Inc. the nation's premier wellness solutions provider. WellCall Inc. has been providing wellness coaching to small and large employers and insurance companies across America for over 11 years. Their coaches are highly trained professionals, most have Masters Degrees and all have proprietary WellCall Wellness Coaching Training focused on helping people get results.
